COORG.

NOTIFICATION.

The 20th June 1874.

Iyen Kallaladamale Estate *alias* Kundubore Tundu in Kuyangeri-nad of the Padinalknad Taluk.

Notice is hereby given that an application has been made by Mr. A. Stephen, for permission to resign to Government a portion of the estate described above; any person or persons interested in the estate, who may object to the resignation being accepted, are hereby required to make known their objections to the undersigned within six months from the date of this notice, on the expiry of which period the application in question will be finally disposed of.

H. G. THOMSON,
Superintendent.

SEASON REPORTS FOR THE MONTH OF MAY 1874.

Shimoga District.

Rain.—Fell copiously in all the taluks at the head-quarters; 7 inches were gauged. In the Maidan the rain was very heavy, and caused damage to several tanks.

Crops.—In the Malnad, paddy was transplanted, while in the Maidan, paddy, ragi, saffron, green-gram and gingelly were sown. In the Nagar Taluk, Vaisak crop or *kar* paddy was gathered; a small quantity of sugar-cane was also cut and collected in the Sagar Taluk.

Health.—Good; deaths 356 against 357 of the previous month. Fever and cold prevalent, and from which causes 237 deaths are reported to have occurred. Births registered 319, against 377 of the month preceding.

Cattle.—The mortality amongst cattle was very heavy this month; 1,258 head of cattle are reported to have died from various diseases; 73 were killed by wild beasts.

Prices.—Stationary.

Accidents by Lightning.—A Bheestee and his bullock were killed by lightning in Shimoga, and a large tree was struck in the compound of the Honnali Bungalow.

A. J. BRUCE,
Offg. Dy. Commr.

Kadur District.

Weather.—Greater part of the month has been cloudy with occasional thunder and lightning. Heavy showers of rain fell throughout the District. Days and nights cool. The beginning and latter part of the month was somewhat clear and sunny. The following table gives the readings of the thermometer and rain-fall as recorded at the Observatory at District head-quarters for this and the previous months.

Months.	Thermometer.		Rain.	
	9-30 A.M.	3-30 P.M.	Inches.	Cents.
April 1874	86.0	92.1	...	46 $\frac{3}{4}$
May 1874	76.18	77.18	9	85

Crops.—The young crops of sugar-cane and paddy already sown in Kadur Taluk are doing well. Paddy, ragi, castor have been sown in some parts of the Vastara Taluk. Elsewhere the ryots have prepared their fields and commenced to sow seeds of different kinds.

Health.—The health of the District has been on the whole fair. Fever prevailed in some parts of the Kadur Taluk, and small-pox exists in all the taluks of the District.

The mortality from the latter was 16, against 6 in the month previous, and the total mortality from all causes is set down at 220, against 196 last month and 271 in May 1873.

Cattle.—It is reported that murrain of the “*Kal Bai*” and “*Dod Jawa*” types still prevail in the Maidan parts. Loss from the attacks of wild beasts has been less. Owing to other causes however the bill of mortality against cattle this month has been heavy.

The total mortality from all causes is set down at 2,353 in this, against 1,828 last month and 1,595 in May 1873.

P. KRISHNA RAO,
Offg. Dy. Commr.
